

# Allan Andrews

Allan, who is originally from Alberta, has lived in Chilliwack for over 30 years and is a partner at the MNP Chilliwack location working closely with my clients to help them achieve their goals and ambitions by providing exceptional client service. Allan has been married to his wife Leah for just over 10 years and has a dog that makes their little family work. Since the inception of the Chilliwack Hospital Foundation, Allan has been working diligently to ensure the foundation makes a difference in our community. He believes a hospital is one of the cornerstones of a community. "If we can help make sure our hospital has the tools it needs to provide quality service to our community that is a huge success. If the equipment can help provide more efficient service this will increase the ability to serve our community. If in doing so, we are able to maybe help in attracting doctors, that is an added benefit."
