

Tim Geddes

Tim was born and raised in Chilliwack and has been involved in the community in many different ways throughout the years. He has been with HUB International Insurance Brokers for 20 years and leads the sales team in BC. He has always been a huge proponent of Chilliwack and continues to believe we live in a tremendous community. Tim values being involved in a foundation that can have an impact on potentially every member of the community. Tim believes having a hospital foundation is key to maintaining levels of service and equipment as well as bringing on new services to help support the community. Maintaining and adding additional services will have an everlasting impact on the community, today, tomorrow and in the future.
